INTERIORS & EXTERIORS

Zantos Interior & Exterior does more than you would think. We accomplish interior and exterior projects of houses, offices, hotels and restaurants in Europe and the rest of the world.

INTERIOR & EXTERIOR

Together with you, we create a design in which interior and exterior come together in harmony.

BUILDING & RENOVATION

From design to the building or renovation: with our project management, we accomplish the whole project, big or small.

ADVICE & DELIVERIES

In addition to a considered advice and design concerning your interior and/or exterior, we deliver (custom made) furniture, soft furnishings, curtains, lighting, accessories, bathrooms and (outdoor) kitchens.

de Bibliotheek
Bibliotheek.nl

The Hague, Netherlands – Zantos has renewed, furnished and decorated the new headquarter of Stichting Bibliotheken (Dutch Foundation of Libraries). It was a total area of 1100m². In just six weeks we stripped the place, put in new (glass) walls, new carpeting and new ceilings. After we did the finishing work such as painting and new wallpaper we started to move in all new (and existing) furniture. To keep the budget acceptable we used existing desk chassis and put on new worktops.

When it was finished the end result was a pleasant working environment for a total of 40 people including a service desk, waiting area, offices and meeting rooms.

RENOVATION VILLA & GARDEN ST AYGULF

At the moment we are working on a major renovation project in St Aygulf. The villa has been completely stripped on the inside. There will be three new bathrooms, a new kitchen, a laundry room, three bedrooms and an office. Above the garage a studio has been created with a bathroom. The entire façade has been equipped with new plaster. All exterior and interior window frames, doors and windows have been replaced. It is not only the villa itself that will be recreated, also the entire garden, driveway and pool. The swimming pool is carried out with a four-sided overflow. In addition, there is a summer kitchen, an outdoor shower and an outside toilet. The work started in November 2013 and should be ready in April 2014.

KARIN ZANTINGH – VAN OS

As an interior designer Karin Zantingh-van Os is strongly connected to the interior projects of Zantos. She has a big influence by determining and creating the right atmosphere for each styling project. A good example is their own house in Montauroux, which is used at the same time as 'showroom' for potential customers. They created their selves the design for the house in which interior & exterior come together in harmony. In addition to these styling projects, Karin spends her time also on her other passion: painting.

Her work is often integrated in various projects of Zantos. The paintings of Karin are characterized by a special and unique appearance due to the materials she uses and the combination of the colors. She manages to let her work perfectly fit in into the interior projects of Zantos.

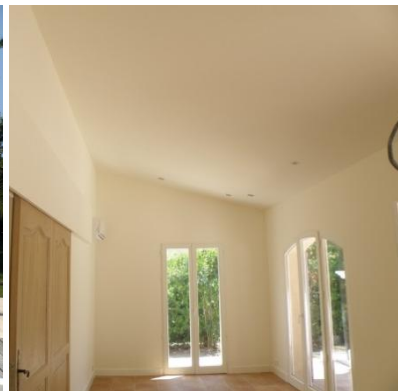

This interesting professional work in combination with her family life makes Karin a very happy woman in the South of France.

GUEST HOUSE GRIMAUD

At the end of 2012 we received a request to build a guesthouse next to an existing villa. This guesthouse had to get the same look as the rest of the villa so that it looked like one house. We first created the design. This was already a challenge because the client wanted two bedrooms, a bathroom, a guest toilet and a living room. All this was only available on 60m2. With the design, we made the request for the building permit, and we got it in 3 months. We started the construction in March 2013 and we were ready by the end of May. The end result was exactly what the customer, and we, had in mind.

THINGS TO SEE

Maison et Object Asia

Mipim Cannes

Did you know?

If you paint one wall in a dark color and the rest of the wall will be white it will give the room a sense of depth and as they in the Netherlands: more cozy...
