INTERIORS & EXTERIORS

Zantos Interior & Exterior does more than you would think. We accomplish interior and exterior projects of houses, offices, hotels and restaurants in Europe and the rest of the world.

INTERIOR & EXTERIOR
Together with you, we create a design in which interior and exterior come together in harmony.

BUILDING & RENOVATION

From design to the building or renovation: with our project management, we accomplish the whole project, big or small.

ADVICE & DELIVERIES

In addition to a considered advice and design concerning your interior and/or exterior, we deliver (custom made) furniture, soft furnishings, curtains, lighting, accessories, bathrooms and (outdoor) kitchens.

KITCHEN EXTENTION MANDELIEU

In January we started a project in Mandelieu. An 8m2 kitchen extension what will give a total kitchen area of 14m2. A little, but difficult, project whit a big result: an open kitchen what will give the total living space a much more open atmosphere. The client had made the design themselves. They had seen an example kitchen with all sorts of little details and specifications in the Provencal style. Due this extension the upper terrace will be bigger also. For us and the constructor it is challenge that the end result has the exact same look as the example kitchen.

INTERIOR STYLING VILLA HEIDELBERG - GERMANY

Looking at the progress of the construction work we have the expectation that the villa will be finished at the end of May. But then the work doesn't stop for us. Together with our client we are busy finalizing the interior design for furniture and accessories. The look & feel will be 'modern contemporary'. Bright colors whit different 'eye catchers' in it. To know the wishes and wants of our client we went with them to Paris and the Netherlands to see lots of examples of furniture, accessories and interior decorations. The interior decoration will be done in one week.

'FOR EVERYTHING FROM A TO ZANTOS'

Renovation, building, design and styling... What began as a small design project in the Netherlands 13 years ago has grown into a complete interiors and exteriors design company, creating everything from dream villas to the perfect bathroom, in Europe and across the globe. Zantos was founded by Ernst Jan and Karin Zantingh and was relocated to the south of France eight years ago. "It doesn't really matter where we are based," says Ernst, "because our clients come from all over the world, including Russia, China, UK, Switzerland, Belgium and Germany. But mainly Europe." The company prides itself on being versatile, able to complete both small requests and large projects. "We can deliver a bed or sofa, or we can do a total concept from design, building and delivery," reveals Ernst. And what better way to display your abilities to your clients than to completely renovate your own home. "My wife Karin and I built our dream villa in Montauroux. My wife and I did the entire design for the house, the interior decoration and the garden. We created a complete concept to show our clients what we are capable of doing. We live in this house with our three boys, aged 16, 14 and 11."Source: *Riviera Times 2014 & Riviera Zeitung 2014, you can read the complete article at www.rivieratimes.com*

GUEST APARTMENT AGAY

For this client, we have converted the second living room into a bedroom with separate bathroom. The existing kitchen we have changed into a kitchenette. There is a separated entrance for the guests which are staying over. The bathroom is modern with wooden furniture, clean and simple. The bedroom is also modern with Provencal details so it will fit with the rest of the house. Beside this we also delivered new cabinets, a new bed and curtains. We managed to do all this in 1.5 week of time.

Did you know?

Originally curtains serve to keep the cold out during the winter months. When evening lights are lit in the house, they also ensure that privacy is counteracted.

Furthermore, they are used to repel sun light for the rest of the interior, which quickly would fade. Many homes are equipped with central heating and double glazing nowadays but some people keep concerned of prying eyes..

But curtains have another purpose. The curtain has namely a decorative function. Especially in today's construction methods. Modern windows are often tight and coldly. While tastes are different, in any case with a good choice curtains your living, bedroom or any room will get a more "warmer and pleasant" feeling..
