ZANTOS AT WORK

AT THE DESIGN TABLE

It's been a busy start to 2018 for ZANTOS with many new concepts to create for clients looking to renovate and decorate their homes and apartments.

You can find Ernst hard at work in his favorite place - his design office. Here he is currently working on projects in various locations in Europe. From an apartment makeover in Malaga, Spain to a renovation project in La Turbie overlooking Monaco, and from the countryside of Grasse where he is renovating/decorating a Provencal villa to the Netherlands and a collaborative working space for an office, Ernst is enjoying a little variety and loving each and every project.

Through his designs and concepts for all of his projects, Ernst reveals his Dutch Touch creativity and experience in all the new ambiances he creates for his clients.
